Connecting America Since 1993

From big cities to rural communities, TouchTone Communications' fully redundant and geographically diverse network brings advanced voice and broadband solutions to ILECs, CLECs, Wireless providers and VoIP carriers across the U.S. under their own name and brand.

TouchTone actively invests in its infrastructure and technology, and continues to develop carrier relationships to bring more value and advancements to both its customers and partners.

About TouchTone Communications

- ▶ Privately-owned, debt-free company
- ▶ Nationwide facilities-based network and Tier 1 carrier resale services
- ▶ Fully redundant and geographically diverse network
- ▶ Fully managed MPLS and Ethernet Private Line services with end-to-end voice QoS
- ▶ Independent/3rd party SMS/800 RespOrg supported
- ▶ SS7-based TDM network
- ▶ U.S.-based in-house support, engineering, and 24/7 Network Operations Center

24+ Years of Industry Experience

With over 24 years of continuous growth and a proven track record of delivering quality products and support, you can be certain that your customers will be getting the very best quality and availability - no matter the location.

Dedicated Account Manager

Each account is assigned a dedicated account manager, who with the help of TouchTone's technical engineers, are involved throughout the entire process and lifespan of the solution - including transitioning from TDM to VoIP.

High Quality Services

Through established partnerships and interconnections, network redundancy and solution scalability, you can depend on TouchTone for high quality and reliable services, at the very best rates.
