

vFax: Paperless Faxing

Inbound/Outbound or Inbound Only

vFax - a better, more cost effective way to send, receive, and organize your fax communications.

With TouchTone vFax you can quickly and easily send and receive faxes from anywhere you have Internet access - either directly from your email, through the vFax online Web Portal, or even a traditional fax machine*.

When a fax is sent to your vFax number, it is converted into a PDF so you can easily open, print, save, or forward it. You can also access your faxes online at anytime by logging into the vFax Web portal.

Save Money – no more fax machines, paper, toner, and maintenance costs Save Time – no more scanning documents; save your faxes directly to your computer

- ✓ **Simple, Hassle-Free** - No hardware or software to install
- ✓ **Mobile** - Send and receive emails from your computer, tablet or smartphone. Set specific delivery instructions, subject, cover page, and when you would like the fax sent.
- ✓ **Secure and Private** - Faxes are SSL-encrypted to ensure that your business faxes are safe and secure.
- ✓ **Convenient** - Send and receive faxes anywhere you have Internet access. Even sync your address book for easy faxing.
- ✓ **Online Storage** - No more paper clutter and waste. Store and easily access your faxes online through the VFax Web Portal.
