## **Go Integrator – Installation Quick Start Guide**

## **Installation**

Download and install the newest Go Integrator for PC or Mac at https://www.gointegrator.com/downloads/software/us.

Once installed, Go Integrator will present Telephony settings in the Configuration window.

You can also access the Configuration window by right-clicking the Go Integrator icon in the system tray menu and then left-clicking the 'Configuration' option from the menu.

Click the 'Save' button to store the information you've entered and apply the configuration.

## **Presence Window**

The Presence window provides a quick way to check the availability of your co-workers. The Presence window is accessible from the tray menu and contains a list of all the extensions, unless your administrator has chosen a different arrangement.

Click on the Tray menu and select View by Extension or Customize.

The customize view will allow you to add and monitor selected users. Click on the "add" symbol (a popup will appear) and then on "search" for all the users. Check mark the user(s) you wish to monitor and click "add" when done.
