

Business Connect Digital Phone Service

Replace outdated phone lines with TouchTone Business Connect voice service.

Business Connect uses the internet to provide a convenient and cost-efficient alternative to traditional landline phone service.

Simple, quick setup

TouchTone's Business Connect voice-over-IP kit provides everything you need to easily make the switch. Setup takes minutes. Simply plug one end of your phone cable into the ATA device (supports up to 4 lines) and the other end to your telephone. It's really that easy!

- ✓ Bring your own internet, or bundle and save
- ✓ Connect up to four phone lines
- ✓ Keep your existing number (or get a new one)
- ✓ Voice features such as caller ID, call waiting, call forwarding, 3-way calling, voicemail, and last call redial
- ✓ e911

Grandstream GS-HT814 ATA

- Supports 4 profiles and 4 FXS ports including dual Gigabit network ports
- Built-in back up battery
- Strong AES encryption with security certificate per unit
- Automated and secure provisioning options using TR069
- 3-way voice conferencing per port
- Exceptional voice quality with wide-band HD codec
- High performance NAT router

Need a life-safety compliant device?

The Grandstream ATA device is not compatible with security systems and medical monitoring devices. If you require a life-safety compliant device, consider our Ooma AirDial service (which supports alarm and fire panels, essential phone lines, building entry systems, and more). Speak with your TouchTone Authorized Agent for details.
