

Business Fax Service: Email-to-Fax

Email-to-Fax enables users the flexibility to send faxes from their computer, tablet, or smart-phone.

Enjoy the ease of sending faxes directly from your existing email client without the need of installing additional software. Easily manage communications by maintaining all faxes and emails in a single client application (such as Microsoft Outlook). After sending an email to fax, you will receive a detailed fax confirmation via email.

Features and benefits:

- ✓ Use any mail client
- ✓ Send a simple fax or attach up to three files
- ✓ Supports most file attachments
- ✓ Real-time web reporting
- ✓ Resend capabilities
- ✓ Detailed email confirmations of sent faxes
- ✓ Auto-retry with multiple route options for the highest success rate
